

A Number of IR records

B

IReXP — what this work adds

- + **Large**
121,233 experimental IR band lists
- + **Redistributable**
88,545 CC-BY/CC0 with bulk download
- + **Traceable**
source DOI + per-record licence pool
- + **Experimental**
 cm^{-1} peak positions — not absorbance curves

IR peers only (NMRexp omitted). Band lists $\neq$ absorbance spectra. Zipoli et al. = computed IR (different object). SDBS/NIST = view-only.
