

IRexp in the experimental spectroscopy data landscape

Database-scale comparison on a logarithmic axis; exact record counts shown above bars

Log10 scale; bars begin at 10k.

Interpretation: IRexp records are experimental IR band lists, not absorbance traces.

Why IRexp?

Large

121,233 experimental records

Redistributable

88,545 commercial-pool records

Traceable

119,345 provenance-linked records
